RE: Cease and Desist from Not Treating Black People as Citizens of the United States

Dear President Obama,

The 14th Amendment of the United States of America Constitution provides citizen rights and protection to all people born or naturalized in the country. Since the adoption of the 14th Amendment in July 1868, Black people have not received the full benefit of United States citizenship. We have been treated unjustly, brutalized and killed by those in authority for decades. This conduct is illegal and has caused much harm to the Black community. I demand that the United States of America cease and desist all avenues of police brutality and systematic racism against the Black community immediately.

Respectfully,
